Dear Sirs:

This will acknowledge your letter of recent date regarding a proposed book on "flying saucers" by Major Donald E. Keyhoe, U. S. Marine Corps, retired.

We in the Air Force recognize Major Keyhoe as a responsible, accurate reporter. His long association and cooperation with the Air Force, in our study of unidentified flying objects, qualifies him as a leading civilian authority on this investigation.

All the sighting reports and other information he listed have been cleared and made available to Major Keyhoe from Air Technical Intelligence records, at his request.

The Air Force, and its investigating agency, "Project Bluebook," are aware of Major Keyhoe's conclusion that the "Flying Saucers" are from another planet. The Air Force has never denied that this possibility exists. Some of the personnel believe that there may be some strange natural phenomena completely unknown to us, but that if the apparently controlled maneuvers reported by many competent observers are correct, then the only remaining explanation is the interplanetary answer.

Very Truly Yours

FLYING SAUCERS from Outer Space

by Major DONALD E. KEYHOE,
U.S. Marine Corps (ret.)

Do you know that flying saucers once buzzed the White House?

Are you aware that flying saucers have been simultaneously sighted visually and on radar scopes?

Have you heard that flying saucers have been tracked by radar at speeds in excess of 7,000 miles per hour?

Do you realize that the United States Air Force has motion pictures of flying saucers?

Can you believe that we are under observation by beings from another planet, or even another solar system?

Major Donald E. Keyhoe, U.S.M.C., Ret., is a responsible, accurate reporter who has made an intensive study of flying saucers. He has worked closely with the U. S. Air Force agency investigating the saucers, Project Bluebook, and has secured scores of Air Force sighting and intelligence reports, here made public for the first time. His conclusion, reached on the basis of what he feels to be incontrovertible evidence, is at once startling and thought-provoking: Major Keyhoe is

(continued on back flap)

JACKET DESIGN BY *Ben Feder, Inc.*

(continued from front flap)

convinced that flying saucers are interplanetary.

Here is the thrilling, behind-the-scenes account of the Air Force's struggle with the flying saucer scare. Major Keyhoe explains with rare forcefulness exactly why the public has never been told the truth about unidentified flying objects. He convincingly destroys the temperature-inversion theory which the Air Force and others have used to explain away the phenomenon of flying saucer sightings. The implications of Major Keyhoe's conclusions are of an importance far greater than the discovery of atomic energy. They hold up the fantastic prospect that we are on the threshold of a new age, or the sobering speculation that we are at the end of an old one.

The Appendix contains the official list of sightings cleared for Major Keyhoe, as well as reproductions of the U. S. Air Force Technical Information Sheet and the Electronics Data Sheet, which provide the Project with complete, detailed information on the sightings.

Major Keyhoe, a graduate of the United States Naval Academy, lives in Alexandria, Virginia, with his wife and eight-and-a-half-year-old twin daughters. He has written several books and has contributed to *The Reader's Digest*, *The Saturday Evening Post*, and other national magazines.

ADVANCED SAUCER LITERATURE

Besides the books and organizations I listed on P.9 of "A Study of the Flying Saucers," I wish to point out these following to the more advanced student of Cosmic Actualities who are New Age conscious.

There will be even more literature published soon as some of the scores of earth people who have actually ridden in them, bolster up their courage to face the abuse of their more ignorant fellows and have their stories published. There are groups who are growing more enlightened, while the masses of people are growing more gross of mind. These materialists are the people who are bringing on this time of trouble. If they would but listen to the voice of their Elder Brothers from outer space, but they won't. Why? Because of these many orthodox religious organizations who are filled with blind dogmas that actually are mere superstitions. I can not say anything against the Bible, but I certainly can against those hundreds of denominations who teach falsely from it, and who falsely say that they believe in it, for I have proved in many places that they don't believe in what they teach. And furthermore they will curse you like they do me for showing them the Scriptures in the Bible that they think they have hidden. But these are the days when all things are to be brought into the light of day.

The orthodox Jews tried to stop Jesus, like the orthodox Christians of today are trying to stop these New Age groups.

"Venus Speaks" $1.00 Bill or 5/6d, Regency Press, (L.&N.Y.) Ltd., 43 New Oxford St. London W.C.1, England, publ. 1954, is a book whose messages were received telepathically from Venus by Cyril Richardson. It reveals the workings of Flying Saucers, Space Ships, life on Venus, information concerning the moon, how to prepare for the coming climatic changes, and a warning and messages from a superior race. Will man destroy himself or will he heed this message. I believe this to be one of the best pieces of literature published to date regarding these things.

"The Saucers Speak" $2.00 by G.H. Williamson publ. 1954 by New Age Publ. Co. 1542 Glendale Blvd. L.A. 26, Calif.. This book gives genuine messages received, and contact with the Saucers. (also good)

"Aboard A Flying Saucer" $3.00 Devorss&Co. 520W9,L.A.15,Cal.. Truman Bethurum relates his 11 visits inside a flying Saucer and his troubles with his wife and friends because they thought that he had hallucinations. But they were at fault because they refused to come with him or investigate these things. I certainly believe Truman's story.

"Interplanetary News Digest" 5 issues for $2.00, Joshua Tree, Calif.. This magazine is very good and covers a wide scope of affairs.

"Golden Light" A monthly publ. by The Fellowship of Golden Illumination, 1014 So. Lake St. L.A. 6, Calif. This contains messages from other planets and also from high angels that are vital to this New Age. They also publish other interesting brochures.

"Proceedings" a mag. from College of Universal Wisdom, Yucca Valley, Calif..

The above may be too hard for the beginner to assimilate. It is better that he starts from the list on P.9 of "Study of the Flying Saucers."

Do you know

Some people affirm that the world has steadily become better, yet the point we have reached after nineteen centuries of Christian teaching is to burn wheat and cotton, dump coffee into the ocean, render down meat for the fat and then cast the meat to the vultures.

Many farmers in the United States and elsewhere have been paid not to cultivate necessary food products, for example, some of us have not forgotten that some farmers too were restricted to the sale of TWO BOXES of Tomatoes per week, hence they didn't grow them. All this because "it didn't pay", so we were told.

'Tis a mad world, indeed, when man speaks in terms of over-production when he cannot even make a blade of grass actually grow, because he cannot create it in the first place.

Only GOD produces, and He never charges, but"giveth us all things richly to enjoy" (I Tim. vi,17).

Human economics are summed up in terms of interest and dividend, but the Law of the Lord expressly states that human need must be the primary consideration (Lev. xxv, 35-37).

God has deliberately declared that at a specified set time, He will take one people in hand, and put HIS LAW in their inward parts, and write it in their hearts (Jeremiah xxxi, 31-40), which people had to develop into a "company of nations" and "a great people".

Are we learning the hard way through bitter experience that God's way is the only safe way? Ye cannot serve God and Mammon (Matthew vi,24).

ABOUT THE FLYING SAUCERS

F. E. Rogers ed
San Diego

Since the Talk of the Times scooped the entire magazine world with pictures of the Flying Saucer or "Disk", and the picture of the little man from another planet who arrived here in one of these disks, we have been flooded with letters and requests for photographic prints of these two pix already printed in the Talk of the Times.

It is absolutely impossible for us to enter into correspondence regarding these two pix, we printed them together with their explanation, and there is one more still to be used to complete that series. We cannot send people photographs of these two pictures, we are not in the business of photography, we are publishers. One correspondent even asked for the names and addresses of these four people with the little man; we didn't get the names and addresses of these four people; we just ran the picture as it was received, and with that we figured our part of the program ceased.

Let it be clearly understood that these same pictures also appear at a later date in some of Meade Layne's Borderland Science Research literature, but it was the Talk of the Times who supplied Meade Layne with the printed sheets of these two cuts. Also, for your information, "Point" magazine - a local slick published in San Diego with a local circulation only - was given permission to use these two pictures and your editor furnished prints to them for that purpose; we give you these facts just to keep the record straight. The engravings for these two pictures are the property of the TALK OF THE TIMES and are in the possession of the Editor.

As usual, one always runs into a lot of "wise " and "smart" alecks, who brand everything that someone else has as false and their own stuff genuine. Let us again repeat, your Editor has had 45 years experience in photographic work, and has been a news photographer of no small reputation. These pix were examined very carefully by him, and he failed to find any trace of montage or faking in the two pictures used. One correspondent thought that the little man was a "dummy" dressed up and posed in this picture. The only trouble with this thought is that the "dummy" so-called, was dressed exactly as described in our release about the crashing of the "disk" in Mexico last December, furthermore, that we have no material available on this planet which would even approach the type of material that covered the body of the little man, after he had been taped up. Why would they want to tape up a dummy? What kind of a W.P.A. project would that be?

It has been brought to my attention that "Pageant" had quite an article about the "little man" from Venus in it, in one of its most recent issues (since, however, the Talk of the Times published its

ABOUT FLYING SAUCERS (contd.)

two pix.) . This article was written by a College Professor, who apparently saw what remained of one of the disks after it crashed, and also saw the "little man" or "men" who arrived here with it. It seems that radios have been taken out of these disks, but so far our experts have failed to be able to do much with them.

For the record again, may we remind you that we broke the story on the Mexico disk wreck last December; at least four months before the story broke over the radio from Los Angeles. Some of you may also remember that Gabriel Heater was all hopped-up over the story, if only he had been a subscriber to the TALK OF THE TIMES, he could have told his listening audience about it four months ahead of the rest. Too bad, Gabriel, better luck next time.

Now for the sceptics who still think the "little man" was a posed dummy, the only thing you can do is to go find yourself someone with 50 years of experience in photography of all branches including news shots, and see if they can find one single speck of evidence that the "little man" was a posed dummy. If you can find such an individual, then write the Editor of the TALK OF THE TIMES and let him know about it, then the two of them can argue it out. So go to it. get busy and hunt up your 50-year experienced photographer, and we'll get together.

In the meantime, don't be surprised or panicky if you see a lot of these "Flying Saucers" or "Disks" in the next six months, they are friendly until we try to shoot them down . We may live to see the day when they will be a Godsend to us, and that even before World War III really gets under way. Remember this, and where you read it and also the date. It may be useful to you someday, who knows?

In a future issue, we shall publish another picture to complete our series on the "Flying Saucers", we won't state just which issue, because so many times we get disappointed by the printer or the engraver, so be on the look out for it, that's all we can say at the moment.

<u>WORLD PROPHECIES FOR 1951</u> (printed book, two illustrations) $1.00

This Year Book for 1951 seems to have made a great hit, we have had many fine letters re-ordering and loaded with compliments.

SUMMARY OF WORLD EVENTS

Stalin has confidentially informed Mao-Tse-Tung that he has decided to appoint him as his successcr as the leador of World Communism ---

Communist China is making rapid progress in the development of its War industry that by the beginning of 1952 it will be self-supporting in basic weapons at least.

The Chinese Communists has an estimated 54 divisions on the South eastern Asian front. Hence the present resistance in North Korea. The 10-day delay by Acheson of the State Department in giving MacArthur the go-signal to penetrate beyond the 38th parallel, can now be seen in the loss of American lives in North Korea. You should never forget this.

The Kremlin still holds the idea that if she can gain more time at least until the fall of 1951, she will be able then to dictate her own terms to the Western Powers, and by 1952 or 1953 attempt a real knock-out blow against the United States.

The Communist party in Western Germany is now being reorganized.

Russia is going all-out to capture the heart of Germany youth. (What are we doing about this?)

In Germany today there is a tremendous sweeping religious Revival, including even cordial relations between the Lutherans and the Catholics.

The structure of Soviet Power has weakened considerably behind the Iron Curtain (You will hear more about this later).

The number of Political prisoners in the Soviet Union is now said to exceed twenty million.

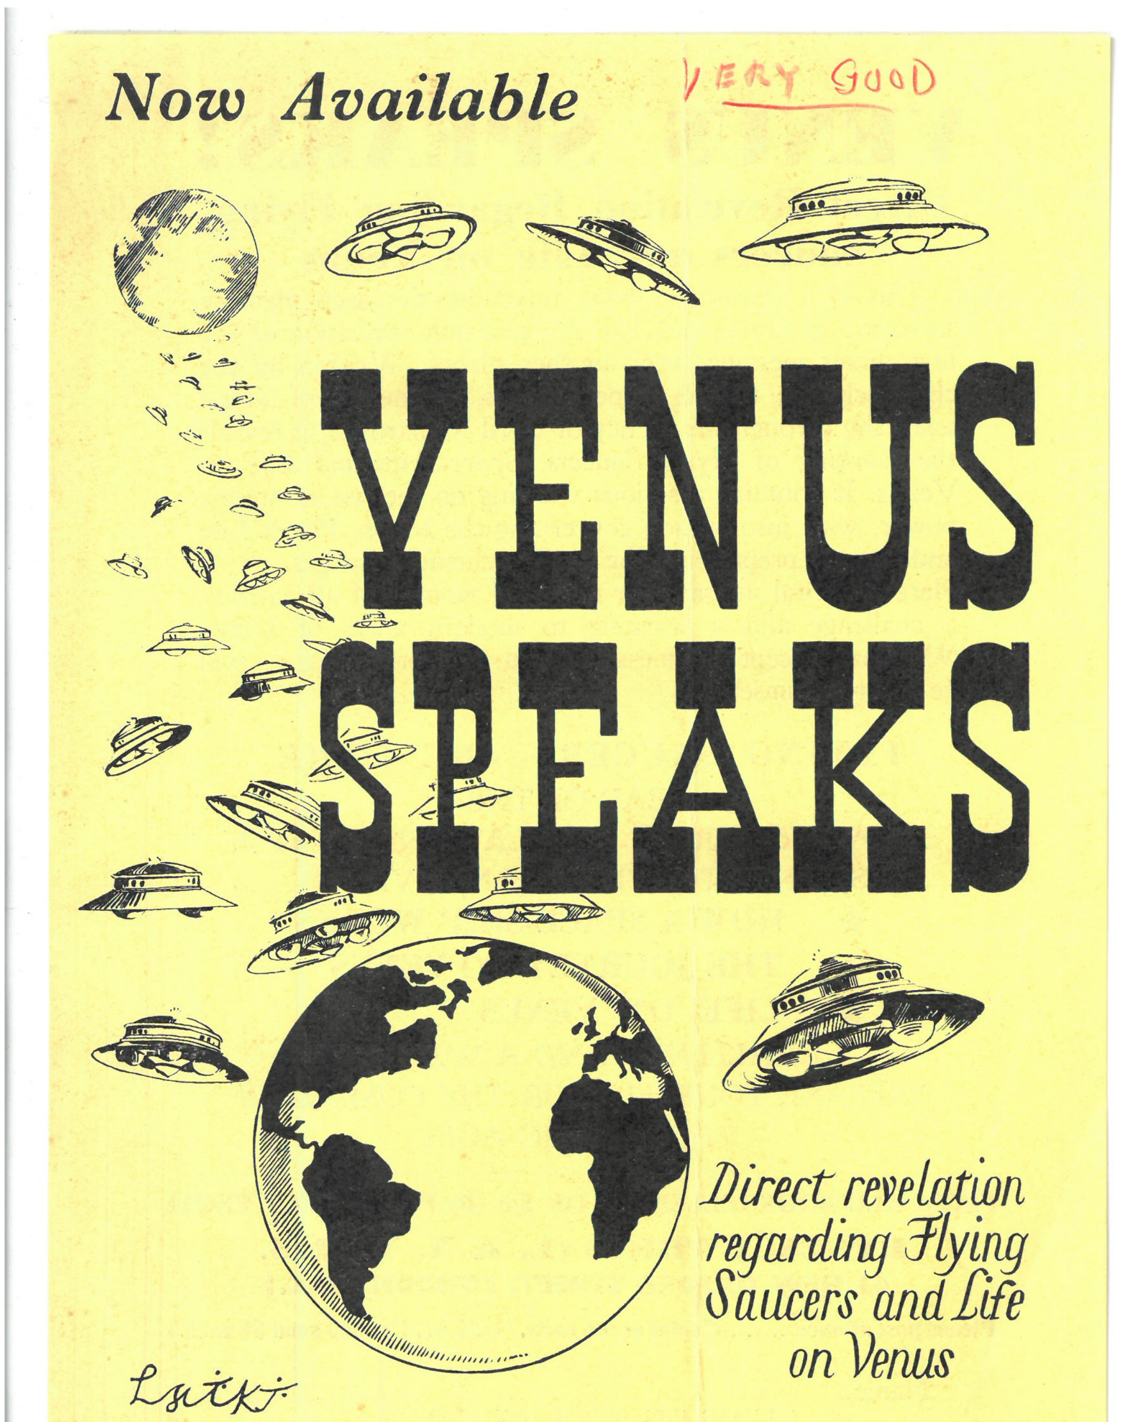

Stalin has the subtle oriental mind's conception of limitless time and infinite patience, when he calculates Russian world moves.

Chinese Communist armies are organized for contemplated operations in three different areas.

The terrible dangers of Soviet Germ Warfare have been mentioned in these columns before, they will be further elaborated on at an early date for our readers.

The abdication of King Leopold is not a closed book by any means, we shall give our readers details of some of the tactics used and who was responsible for them in a later issue.

Flying Saucer Pilgrimage

Bryant & Helen Reeve

$3.50

The insistence of individuals on the truth of the flying saucer phenomena on the one hand and official denial on the other hand has confused many of us. Whom are we to believe, and how are we to judge? The authors of this book decided that the only way to find out was to make their own investigation. Thus they set out on a 23,000 mile pilgrimage to visit, talk to, and live with those individuals who claimed saucer experiences. They spent two years in their self-appointed task.

The first year they invited prominent saucer contactees, such as George Adamski, George Hunt Williamson, Truman Bethurum and Desmond Leslie, to come to Detroit and tell them all about it. They hired lecture halls and as many as 4,700 people attended. They were fascinated.

In 1954 Bryant Reeve retired and he and his wife drove to Mexico. Here they found saucer interest high, and with far less official and unofficial censorship. They helped uncover a Mexican chauffeur who had contacted a saucer near Valles, Mexico, and had conversed most of one night with two men from outer space.

(More on inside back flap)

AMHERST PRESS
Amherst, Wisconsin

(Continued from front flap)

Then began a round of visiting everyone they could think of who had seen a flying saucer, contacted one by any means whatever from radio to mental telepathy, or who had a theory on flying saucers. They decided that by such visits, by actually living with these people, they would come to know them, and by this type of study be better able to evaluate the truth or untruth of their stories.

They sought out Daniel Fry, the rocket technician who said he rode a flying saucer for 4,000 miles. They contacted Meade Layne, director of Borderland Sciences Research Associates, one of the greatest living researchers into the supra-physical aspects of flying saucers. They went to Mark Probert, famous trance medium. They made every effort to evaluate the varied phases of saucer phenomena.

Now, in this book, they tell you of their contacts, analyze the evolution of their own theories, tell you of their own experiences, their own sightings, and finally give you a great many things to think about — a great many facts upon which to base your own decision.

Bryant Reeve is an American engineer, a graduate of Yale and the Massachusetts Institute of Technology. He and his wife Helen became interested in Saucers in 1953, and due to the conflicting information and official denials decided to make their own investigation. Flying Saucer Pilgrimage is the story of their amazing private research which took two years' time and over 23,000 miles of travel.

Perhaps you've read a dozen books written by persons who claim to have contacted, and actually ridden in, flying saucers. You've studied their stories, evaluated them from every angle — and perhaps you are still puzzled? Here, in this book, may be the solution to your quandary. You will meet many of these people face to face and get to know them through the eyes of Bryant and Helen Reeve, who actually went and lived with them. Here is the story behind the story!

BRYANT & HELEN REEVE PRESENT

The book nobody else had the time to write. And yet it is a book that had to be written. For more than ten years, ever since Kenneth Arnold electrified the world with his report of nine fantastic objects flying over the Cascades, which he christened flying saucers, the people of the world have been beset on all sides by incredible accounts of sightings, of being taken for rides in saucers, even to other planets; of official sightings and equally official denials; little saucers, big saucers, monsters; disc-shaped, round, square, triangular, opaque, transparent, fast, slow. Truthful accounts, deliberate hoaxes, theories by amateur and by expert. Here, there everywhere — but unfortunately, no personal sightings for most of us. But here, in this book, we have a proxy — an aid to our eyes, a cane to lean on, an invitation to visit, to observe, and to judge. Through the eyes and ears of the authors, we are there! We are taken on a veritable tour.

George W. Van Tassel standing beside Giant Rock, his hollowed-out California sanctum, scene of the 1957 Saucer Convention which drew more than 7,000 persons.

FLYING SAUCER PILGI

The Book That Brings The Flying Saucers D

On this folder we present several of the many photographs that appear in "Flying Saucer Pilgrimage". Here you can see for yourself the "down to earth" nature of the research done by Helen and Bryant Reeve as they traveled 23,000 miles to meet, converse and live with the people whom they term "saucerers". Everywhere they went, their camera was always ready, not to produce sensational pictures, but only homey, family-like photos of the *real* people these "saucerers" actually are. An aircraft worker, an amateur astronomer, a chauffeur, a housewife, an electronics engineer, a maintenance mechanic, a second cousin to Winston Churchill, a rocket technician, an anthropologist, and many more. Once you know more about these people, their stories will take on added significance. For the actual book jacket to "Flying Saucer Pilgrimage", see the other side of this sheet.

ANOTHER BRILLIANT NON-FICTION TRIUMPH
From
AMHERST PRESS

This is the fourth in a series of sensationally successful and popular books concerning flying saucers. The first was Arnold's own "The Coming of the Saucers" (a complete sellout); next came "The Secret of the Saucers" by Orfeo Angelucci (now in its fourth edition); just recently "Other Tongues — Other Flesh" George Hunt Williamson's scholarly tome (claimed by serious researchers as the decade's best).

Professor George Adamski and the Mexican chauffeur, Salvador Villanueva Medina, as they met in Mexico City to compare their incredible adventures with visitors from outer space.

RIMAGE

Down To Earth!

But that's not all! Here, in *Flying Saucer Pilgrimage,* Bryant and Helen Reeve have introduced us to what they call OSC (Outer Space Communication). In their travels they learned that seeing saucers is only *part* of the experiences of these "saucerers"; there is much more, and in many cases, it continues. Many times a sighting has been reported, then the sighter says no more — but his adventure has not ended. A communicative contact set up with the original experience is continuing. Bryant and Helen ran into a tremendous, startling pattern in their travels. It appears in coherent form for the first time in this tremendously important book. And in addition to giving clear and forthright answers to dozens of natural questions about flying saucers, the authors have managed a book that is interesting, humorous and entertaining, in the same breath that it is searching, profound and thought provoking.

(Monday) December 15th, 1952

FLYING SAUCERS INTERNATIONAL:

P.O. Box 34, Preuss Station, Los Angeles 35, Calif.

(The Following report was compiled after months of extensive investigations of the subjects in question. It shall be desnated as the FSI report # 1. This is am official report on "unidentified aerial objects" by the organization of FLYING SAUCERS INTERNATIONAL. Additional copies of this report can be had by sending 25¢ (per copy) to the headquarters listed above. We believe that we have more than enough "proof" to substantiate the statements made below:)

.REPORT:

Flying saucers are real! That is a known fact by us, and, we believe, anyone conducting a simular investigation of these objects.

The United States Government not only knows that the saucers are real, but they also know that flying saucers are "interplanetary!"

The U. S. Government may or may not be conducting a slow campaign of "indoctrination," but it looks as if they are at the present. (We have had many reports to that effect.)

Flying saucers either come from the planets Mars or Venus! They cannot come from a planet outside of our solar system, because of the time it would take for the journey. There is a chance, though, they may be inhabited by beings from another system.

(Add to above:) There may be a signaling or transmitting "station" or "base" on Mars. This may be because of the light flashs seen by Dr. Lowell and his associates, plus the radio signals (unidentified) picked up several years ago.

The Government (of the U.S.) will soon release information that the flying saucers are real! This will probably happen shortly after Eisenhower takes office. They will state to the effect that saucers are from another planet.

The Navy as well as the Air Force has done much investigation on the objects. This is not generally known; but true never-the-less.

Because of the "flying saucer cycle" (as we call it)--which is approximately a year and one-fourth between the greatest magnitude of one cycle to the next--we believe the flying saucers will be back in great numbers in late 1953. And because of the recent hydrogen explosions (and possibly more to come shortly) it looks to us as if the saucers will make an undisputed appearence!

(Add to above:) The greatest number of sightings in 1952 were in July (or June through August); therefore one year and three months from July '52 would be October '53 (or Sept. through Nov.). It is also believed by us that it was the "atom explosions" that brought them (the saucers) here in the first place.

It is likely that a flying saucer will make it's first appearence in a desert (probably in the United States)! What type of landing, how many will land, and what will be inside of the saucers we do not pretend to know.

THE AMAZING AURAMETER

. This amazing and unbelievably sensitive tool is designed for use in a great varie of SCIENTIFIC nad METAPHYSICAL experiments and lines of research. As pictured abov it consists of a hollow aluminum handle, a slender spring-steel stem carrying at it outer end a hinged pointer or weight which may be turned up, down or forward as des ired, (The latter for "MAP DOWSING"). This stem is pivoted at the rear end from a d icate bearing attached to the handle, allowing it to swing to either side. This ho ever is restrained to some degree by a tiny spring inside the handle, causing the pointer to align itself with the handle except when it is pushed by some force from the outer end. The angle of this bearing has the effect of AMPLIFYING the delicate pressures or pulls on the pointer which would otherwise perhaps go unnoticed.

The pointer in general use should be pointed slightly above straight with the ste but in map dowsing it is turned nearly straight down.

By making use of the latent powers of EXTRA-SENSORY-PERCEPTION, or ESP, which are common to and available to all of us, we may trace mineral-bearing or oil-bearing areas on a map as well as underground streams of water. Amazing feats have been pe formed by map dowsing and many are a matter of record such as the locating of three fresh water wells on the Island of BERMUDA, supposedly arid, by Henry Gross and Ken neth Roberts, and this was done, I might add, from their home at Kennebunkport Main 840 miles away. The wells were afterwards pinpointed on the ground and drilled and all produced fresh water as predicted.

Due to the fact that the AURAMETER takes on an electromotive or electromagnetic charge of some sort by contact with the hand, unless this charge is withheld by ske ticism, fear or some other emotion, it is drawn by "the affinity of opposites", (Neg tive for positive etc.), toward underground water or oil reflections, which are Neg ative in character, according to my findings. The Body Aura has a Positive Polarity since it is capable of emitting force and transmitting it to other bodies, which wh carried to the pointer causes it to be repelled by other peoples Auras when brought near them. This phenomenon permits one to trace out the outlines of the aura, sim-ply by allowing the Aurameter to slide along against the outlines of the Aura.

On tracing hundreds of Auras, I found the presence of what to all intents and pur poses is a pair of WINGS protruding from one's shoulders, just as shown in imaginar pictures of Angels, tho the shape is somewhat different, being more like Fins, stra ght and level on top, curving up and out from the hips to a point at the outer end.

Above the left cheek, covering the eye area, or coming from the left eye, is the TELEPATHIC BEAM, which extends to about 22 inches when at rest but which after 20 seconds of concentration rapidly extends to touch the object or person concentrated upon. this evidently acts as a carrier wave for the message if one is sent.

Above the head I found a very good representation of the so-called HALO. It hover about six inches above the head normally, but at times of a heavy drain on the VITA FORCE this ring of force, about three inches thick and twenty inches diameter, sett to rest on the head and becomes from ten to in one case thirty feet in diameter. This latter huge Halo, I found on the Famous Medium, Mark Probert, while he was in trance. The normal depth of the Aura is about two inches, except over the chest or heart region, where it is about 8 to 12 inches deep. During strong emotional period this forse from the chest may extend as much as 26 feet. A triangular fin of force extends from the back of the head, about twenty inches, apparently the receptor of the telepathic beam when in action from another person.

One of the most amazing uses I have found for the Aurameter is in conversing with the Invisible World, the living Mentalities around us such as our own GUARDIAN ANGE and those of others, as well as the Spirits of the Departed. This of course is fan-tastic to those of the readers who have not investigated the possibilities or who are not convinced of the reality of life in the Hereafter. It seems very real, how-ever to those of us who have felt the undeniable thrust from the outer end of the Aurameter, by Conscious forces which we cannot see; Forces giving sensible answers t our questions by a code using a right swing for "YES", a left swing for "NO", slowly back and forth for "I DON'T KNOW", etc. I have found My Guardian Angel, (also called Higher Self, Alter Ego, Aumakua etc.), to be of great value not only as an always-pr ent Mentor and advisor, but also as an invaluable Messenger, able to call in a few s onds any other Spirit capable of answering. More about this in my new book now being prepared as a follow-up to "The AURAMETER" long out of print, which I hope will be

a regular cloth bound, bona fide book if I am able to get it published properly, and which will probably go into a publication of something like 10,000 copies. It will be entitled "The Human Aura and The Amazing Aurameter."

The rays from the hands are those used in healing by which we are able to extend the power brought into our skull and transformed by the brain, according to the theory of Dr. Leo L. Spears of the great Spears Chiropractic Sanitarium of Denver, and transformed in the brain into a slightly different wave length and sent out through the nervous system, which is like a bunch of wires, though the spine to all parts of the body, and radiated through the nodes on the ends of the nerves to the individual cells which are like little receiving sets. By concentration, this force may be drawn on to a much greater degree, at which time the halo becomes very large, and this power is brought in in heavy volume and sent through the hands into another's body with the healing power which is known to exist. This power may also be directed by the left eye to plants, causing them, under stress of blessing, to grow unusually fast, or with a curse in mind, they can be stunted or even killed, or prevented from growing from the seed.

The Aurameter was named by Max Freedom Long, the author of "The Secret Science Behind Miracles" and "The Secret Science at Work." He also published for years the Huna Research Bulletin monthly, but which now comes out quarterly. In his Bulletin No. 60, about three years ago (Huna is the science, lore, religion, tradition and beliefs of the Hawaiians) he said, "I did not mean to be tiresome and guilty of baiting the hook of interest with mystery when I said that in due time I would tell of my experience with Associate V. L. Cameron. I know how much I dislike the withholding of things after mentioning them as something mysterious and wonderful. In this case it was something which to me is more fantastic than usual and a part of the research field that is filled with findings difficult to accept. What seems so fantastic to me, yet, is that the human aura, or call it the etheric body, astral body or the body made of the aka bodies of the low and middle selves, blended, has extensions from the shoulders which, for all the world, resemble wings. In addition, there is an aura like a large, thick doughnut with a small hole in the center, this aura always remaining above the head. Those items of discovery at the hands of H.R.A. Cameron are topped by the most fantastic find of all. In feeling around wtih his special instrument which measures the shape of the aura by moving away from it when brought into contact, there was found to be above the doughnut-shaped aura, with feet so high as to be almost beyond the reach of a tall man, an aura the size and shape of a human body. A ladder was used to trace its outline with the instrument when first discovered."" Up to this time we have lacked a true instrument for the measuring of the position and extension of the auras. True, the psychics of all ages have seen the auras and have agreed upon the whole that they are there. The trouble with psychic vision is that often the visions do not agree, this sad fact discrediting the findings in a large way."

The Aurameter will locate the energy fields around magnets and known force fields with great accuracy, but will even locate force fields around jewels (gems) of some kinds, such as the Agni Mani and the Apache tears which are being built into pendules or pendulumsfor similar testing by The Gem Exchange (Gem Village), operated by my friends the Greens at Bayfield, Colorado. They have kindly submitted different gems for me to test, and some of them actually show a force field like that around an object which has been blessed, so I can believe that they could be valuable as talismans or charms, espcially if they were additionally blessed by someone who has a great deal of good in his makeup and close connection with the Creator. It is believed that with these gems built into a pendulum, which is a weight of suitable nature suspended from a thread or chain and which will set up an oscillating or circular motion around force fields and is used all over the world in many kinds of research, even in testing for force fields around diseased or irritated spots.

Doctors in many parts of the world have purchased Aurameters for use in their work, and many times I have been called in for consultation in their offices and was able to help them obtain a better understanding of their patient and his condition. In one case it was to measure the auras and test them for changes during hypnosis while the prospective mothers were being trained, subconsciously, to prepare them for painless childbirth, which is very successful under prenatal instruction.

I manufacture the Aurameters myself, testing everyone carefully for balance, poise and accuracy. The regular one sent out for experimental use is only $15.50 postpaid, or $15.95 in California, including the tax. They come packed in a durable tubular case, insured.

A price of $50 entitles one to a great wealth of information about locating underground water and oil, and an instrument with the blessing of the inventor, for use in competition in the locating field. This higher price is on account of this being the inventor's principal means of livelihood, and it is inviting competition to sell an Aurameter for that purpose. I have been very successfully engaged inthis for 30 years.

They may be obtained by addressing Rev. Verne L. Cameron, Route 1, Box 1120, Elsinore, California.

From a Visitor from another Planet.

11 February, 1953

On the destroyed planet of Carmponia, the planetary Akashic Ether was disjointed by ~~[illegible]~~ Hydrogen Estrogenes coming into contact with Akashic globules of Light in a wrong combination.

This will happen, too, on Earth. People will become COMPLETELY unbalanced psychically, as the bewilderment of all but the highest souls will be terrific. Say to them, then, always to PRAY - constantly to hold their center in a column of White Light, and so tune in to the highest and most stable vibrations possible for themselves. These who are led individually, will still be led individually - and continue to receive their instructions, per se. Much distortion of etheric messages will be evidenced - as indeed on your planet today - by this disturbance of great magnitude. The atomic fission has distorted layers of ether around the globe that your scientists did not even know existed - so has the basic damage been done already. The disruption still further by nuclear fission has, and will, unbalance the world Earth in its orbit. Our scientists did the same - with even more diabolical instruments of their own fiendish conjectures, they destroyed our beautiful Homeland. Our planet Carthusia - neighbouring to our lost planet Carmponia (from which I come) took what survivors there were. We were the High Initiates of Carmponia, were gathered in a safe place, and taken ashore - as it were - on a neighbouring island of safety. Henceforth we dedicated our earth lives - the time sheduled to us to remain in planetary form - to assist and warn other planetary peoples to ward off the disastrous effects of scientific meddling. Little do the people know what their magicians, or scientists, are brewing for their destruction ! We, too, contributed blindly to the welfare and betterment of scientific research - and were destroyed because of it. You have been given a picture of what our planet is today- all dead, in the Earthly term, but vague wandering souls whose vile creation this monster of destruction was. So are they left to wallow in their dreams of drunken idleness, with slowness of men walking beneath the seas. O, my friends of Earth, I, Barthouloos of Carthusia, lately of Carmponia across the sky in the galaxy of Ulita - your own - say to you; - care not for aught but the Universal Laws of God - for CONSTRUCTION and not DESTRUCTION- lest it destroy that which is dearest to thy heart, and that of thy fellow-man.

Worry not that the names of our planet appear different through different Earth channels. There are many reasons for this. On different levels of consciousness, sounds - and sights - have a somewhat different feeling - like one word in many Earth languages.

So now I tell you - ALL try to stop the explosions of hydrogen, et alia, on your planet Earth - or your brilliant scientists will destroy you as ours destroyed us.

Love ye one another - a UNIVERSAL tenet - is not an idle intonation - The

FORM 801 THE STANDARD REGISTER CO., DAYTON 1, OHIO, U. S. A.

love vibration is so high that it lifts the sender and the receiver into realms of consciousness they cannot know on lower vibrations. LOVE YE ONE ANOTHER - particularly those who work FOR your destruction. Send out the love vibration always to those whom you would otherwise fear. It is - if truly sincere and from the heart - the most curative for all ills - physical or moral

So now I say to you, each who reads this - let us say NOW a little prayer - you on your planet, me from mine so sick and destroyed now - let us join forces in a prayer of Love for all mankind, for all life in form throughout the Universe of Worlds; say with me, then, a favourite prayer of the Initiates of Carmponia. It is thus :-

O Holy, Holy, Holy One
The Circle of our World
You Girdle Love and Light about
Your Flag of Love unfurled.
You art our Breath, our Sight, our Knowing,
You art the Coming and the Going
Of every Cell in Holy Manifestation
Throughout the Universe of Worlds.

Amen, beloved brethern of the Earth world, I Barthouloca, have spoken this to my friend Michael, whom I have known aforetime - though she remembers it not yet. Amen

---

We are ALL - throughout the world - asked to form a daily circle of Prayer for Peace, and to send out the Love Vibration in Prayer(the one above, the one following, or others) at arising, at noon, at sundown and at midnight(or retiring). Please send this communication to all throughout the world.

---

7 October, 1953

The Cosmic Prayer, I God Jehovah tellest thee, child Michael, is thus :-

Divine Parents,
I BELIEVE every Wheel throughout the Universe turns on the Divine Flow of Thy Cosmic Energy;
I BELIEVE every Cell throughout the Universe is filled with Thy Divine Love and Light;
I BELIEVE the Power of Thy Divine Will dissolves every shadow through the Time and Space of Thy Divine Creation.
Thy Will be Done. Thank You. Amen.

Kindest regards -
Ann (Greveler)

Delighted with fact that he approaches subject matter with enquiring mind rather than a scoffing position.

2. We do not know what unit of measure they use. All we know is our measurements follow this pattern and we assume that mathematical law in this solar system whatever system of measuremt they would use would balance out. English and French trains. Metric system works out just the same.

#3. We don't know what purpose these apparent timepieces are. We do not know that they are timepieces at all. But it took that amount of time to go around. It had characteristics of timepieces.

#4. Apparently you do not know that magnetic lines of force in this planets solar magentic field move at twice the speed of light. Therefore magnetic combusion stepped up to where lines are crossed sufficently to reach a point of 50% of maximum power available had forced the saucer to attempt to get away from the combusion at the rate of at least the speed of light. Hence our people contend that the generation of speed once the saucer is outside any planetary atmospheric condition where wait no longer exists, were restistance no longer exists, then the maximum speed that could possibly be generated would be approximately twice the speed of light because you cannot get outside the realm of magnetic lines of force. In other words your fuel is always available to you from which you create conbustion. And since the directional flow of the saucer is predetermined in its movement it appears that the saucers have the means of generating the maximum power above referred to.

#5 It is our co tention from studies to date that the occupants ~~have~~ of the cabin of a saucer have no more consciousness of movement than you do at this moment even though you're travelling 18½ miles a second in one direction and considerably faster in another. Your

magnetic balance as far as this earth is concerned and therefore its mov movement is no related to your consciousness. If you have any experience with magnetizing equipment beginning with magnetic needles for example you should know that once they are grounded in the earth their magnetic balance is restored. The electrocution of people on a golf course for example we do not know that such persons were instantly burned and therefore completely you're assuming that simply by falling on the surface of the ground it would restore magnetic balance.

#7. I'm not familiar with these experiments you refer to, but I shall refer the matter to the magnetic scientist whom' I'm q aquainted with for comment.

#8. I'm not permitted at this time to discuss the extend of demagnetisation.

#9. I'm not permitted at this time to discuss the radio beyond what appears in the book.

#10. My reference to a magnetron was my own decision and I'm not a scientist. The scientific group to whom I refer are engaged in geophysical research and I learn that some of their geophysical equipment they employ used magnetrons so it sounded like a good word to me as they refused to give me defining terms to to their geophysical equipment because of their experimental status.

IMPORTANT INFORMATION TO CARRY YOU THROUGH SOME UNUSUAL

WEATHER CONDITIONS AFTER SEPTEMBER 21, 1952.

If directions in this Circular are followed carefully, no casualities will occur as result of the unusual weather conditions. There is no need to fear and none need die of fear.

A check with the Astronomers will reveal that the Ball of Dust, so-called, is in the Earth's orbit and has been predicted to collide with the Earth in September along with the hole recently discovered in the Sun and the Star which pulsates and flickers completely out and on, along with a Comet they have been following. Approaching this system at 24,000 miles a minute.

To these revelations from your Astronomers can be added six more they have not revealed. They do not pretent to know what will happen nor do they inform the public of this impending collision, but with the contact between the Earth and the Ball of Dust, your atmosphere will be illuminated. Their forecast that the sun will be darkened for 25 days prior to the contact is an error. It shall be 27 days. They did not figure on the parahellion of a parabollic from a curve of the sun's vortice to the globe's vortice. It is shortsighted to think that the vortice does not exist around the Earth. You were told some months ago that a Comet from outer space would cause a change in polarity of the Earth Planet. Now your Astronomers have picked up this Comet in motion but they have not determined its course. IT SHALL CROSS THE PATH OF THE SUN'S VORTICE, CREATING A NEUTRAL POLARITY ZONE IN THE ARC OF COSMOS.

INSTRUCTIONS FOR YOUR PROTECTION DURING UNUSUAL WEATHER PERIOD

Stay in your homes during the day. All right to go out at night only. Upper levels are best during this period, mountains where trees are plenty. Where trees are plentiful there is lots more oxygen. Keep windows and doors closed and secured to protect from breaking by heavy winds. You will need heavy blankets, protective clothing to cover entire body. Wear the color Red for blood circulation. You will need brushes to brush hair and body. Use no soap at all. Do not comb hair, use only brush. Cut hair on head short, particularly Redheads. Shave hair under arms. One small Oxygen Tank should be in every home. Best for mothers to use disposal diapers for babies. Cover faces with plastic or rubber face masks. Do not expose the body toe much to the air. Protect the eyes with the PINHOLE GLASSES! Keep bowels open naturally - no drugs.

What to Eat: EAT NO HEAVY FOODS! Eat Melons and seeds of the melons. Vegetables, fruits and drink water. You will need enough protein. Use Soy or Olive oil. (Use NO MEATS)! Blood must have Iron; use Blackstrap molasses. EAT ABSOLUTELY NO SUGAR! It takes Oxygen to burn Carbon. All sugar except Fruit must be eliminated. All canned foods will be good. Do not use the frozen foods. Be very careful with Electricity. Do not use Radios or Television. Do not drive cars. Do not bathe. Do not waste creative energy. No Sex! No smoking. No alcoholic drinks. Do not become angry. Don't talk too much. You will have to shout to be heard. Do not use linens; linens do conduct electricity. Do not make any food of dead animals.

Sleep 12 hours during the day. Eat during the nighttime only. Conduct all necessary activities during the night. Respiratory organs will adjust to conditions. To help your body adjust, along with following light diet, stand on your head each day to bring circulation to brain. Use Yogi breathing, which consists of exhalation mostly, little panting inhalations.

Protect all power plants with asbestos. Have physical check-up, including teeth before this unusual weather period. Metal fillings and crowns in teeth short-circuit red corpuscles. Males will be weaker than females. Mothers and babies will do well. Stop all surgery; stop all killings.

We will experience many strange feelings, but there is no need to fear. There is no danger, just follow directions and do not worry. Be sure exercises are taken regularly. Walk as little as possible. Exercise refers to head-standing and Yogi breathing only.

For further information regarding reports on conditions, write to P.O.Box #96, Wrightwood, California, Dr. Kaye Mullendoor, for the balance of the year, 1952.

These reports have been coming in from the Flying Saucers and Planet Space Ships for the past three years and they have given us the information about the recent Earthquakes and other reports have been proven true to the letter. They are telling us now that they will land during this period in many places on the Earth and will speak as they are trying to protect the Earth and keep mankind from destroying himself through through ignorant and destructive use of Atomic Energy and Hydrogen explosions. We have been told to report to the people and to our Government that all Hydrogen activity must cease or the plants and workers will have to be destroyed to save Mankind. All Leaders are hereby informed to advise the masses of coming events and that the Saucer People are peaceful and have only appeared because of factors at work which might bring oblivion to all humanity, and make the Earth a cinder!

We have advanced you information, in the faint hope, that some of your governmental authorities would grasp the fact, that with the explosion of living substance, they create a condition parallel, to what your scientists call frozen equilibrium. This release of free hydrogen into the atmosphere of this planet, will cause flames to engulf many portions of this planet momentarily. Those in authority, in the governments, are assuming direct responsibility, not only for the people inhabiting this planet, but their own immediate families, wives, children, parents, and relatives are also their responsibility, for these dear ones shall not escape. You in authority, of the governments of the planet Shan, think twice if you would have your loved ones with you. Consult your physicists. Ask them about the parallel condition of frozen equilibrium. They should inform you, if they speak the truth and are not influenced otherwise by the forces of darkness, that this is truth.

Our informant tells us the reasons for storing enough of the oxygen foods and not the heavy foods, (animal, grains and dairy products) is becaused with the lack of oxygen in the air, due to metallic substances and gasses, we can obtain oxygen from the oxygen foods, which are fruits, vegetables and water. Also, get unsulphured dried fruits. Store now in preparation for this coming weather change.

Be happy and do not fuss about your physical discomfort. Have humorous literature around to keep up morale.

From Center Fourth Sector, Blaau.
